

Australian Standard[®]

Installation of fire hose reels

This Australian Standard® was prepared by Committee FP-007, Fire Hose Reels. It was approved on behalf of the Council of Standards Australia on 27 October 2005. This Standard was published on 24 November 2005.

The following are represented on Committee FP-007:

- Australian Building Codes Board
 - Australasian Fire Authorities Council
 - Australian Chamber of Commerce and Industry
 - Association of Hydraulic Services Consultants Australia
 - Certification Interests (Australia)
 - Fire Protection Association Australia
 - Fire Protection Association, New Zealand
 - Insurance Council of New Zealand
 - New Zealand Fire Equipment Association
 - Property Council of Australia
 - Telstra Corporation
-

This Standard was issued in draft form for comment as DR 05069.

Standards Australia wishes to acknowledge the participation of the expert individuals that contributed to the development of this Standard through their representation on the Committee and through the public comment period.

Keeping Standards up-to-date

Australian Standards® are living documents that reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued.

Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments that may have been published since the Standard was published.

Detailed information about Australian Standards, drafts, amendments and new projects can be found by visiting www.standards.org.au

Standards Australia welcomes suggestions for improvements, and encourages readers to notify us immediately of any apparent inaccuracies or ambiguities. Contact us via email at mail@standards.org.au, or write to Standards Australia, GPO Box 476, Sydney, NSW 2001.
