# Legal Notice for Standards

Canadian Standards Association (operating as “CSA Group”) develops standards through a consensus standards development process approved by the Standards Council of Canada. This process brings together volunteers representing varied viewpoints and interests to achieve consensus and develop a standard. Although CSA Group administers the process and establishes rules to promote fairness in achieving consensus, it does not independently test, evaluate, or verify the content of standards.

## Disclaimer and exclusion of liability

This document is provided without any representations, warranties, or conditions of any kind, express or implied, including, without limitation, implied warranties or conditions concerning this document’s fitness for a particular purpose or use, its merchantability, or its non-infringement of any third party’s intellectual property rights. CSA Group does not warrant the accuracy, completeness, or currency of any of the information published in this document. CSA Group makes no representations or warranties regarding this document’s compliance with any applicable statute, rule, or regulation.

IN NO EVENT SHALL CSA GROUP, ITS VOLUNTEERS, MEMBERS, SUBSIDIARIES, OR AFFILIATED COMPANIES, OR THEIR EMPLOYEES, DIRECTORS, OR OFFICERS, BE LIABLE FOR ANY DIRECT, INDIRECT, OR INCIDENTAL DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES, HOWSOEVER CAUSED, INCLUDING BUT NOT LIMITED TO SPECIAL OR CONSEQUENTIAL DAMAGES, LOST REVENUE, BUSINESS INTERRUPTION, LOST OR DAMAGED DATA, OR ANY OTHER COMMERCIAL OR ECONOMIC LOSS, WHETHER BASED IN CONTRACT, TORT (INCLUDING NEGLIGENCE), OR ANY OTHER THEORY OF LIABILITY, ARISING OUT OF OR RESULTING FROM ACCESS TO OR POSSESSION OR USE OF THIS DOCUMENT, EVEN IF CSA GROUP HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, INJURY, LOSS, COSTS, OR EXPENSES.

In publishing and making this document available, CSA Group is not undertaking to render professional or other services for or on behalf of any person or entity or to perform any duty owed by any person or entity to another person or entity. The information in this document is directed to those who have the appropriate degree of experience to use and apply its contents, and CSA Group accepts no responsibility whatsoever arising in any way from any and all use of or reliance on the information contained in this document.

CSA Group is a private not-for-profit company that publishes voluntary standards and related documents. CSA Group has no power, nor does it undertake, to enforce compliance with the contents of the standards or other documents it publishes.

## Intellectual property rights and ownership

As between CSA Group and the users of this document (whether it be in printed or electronic form), CSA Group is the owner, or the authorized licensee, of all works contained herein that are protected by copyright, all trade-marks (except as otherwise noted to the contrary), and all inventions and trade secrets that may be contained in this document, whether or not such inventions and trade secrets are protected by patents and applications for patents. Without limitation, the unauthorized use, modification, copying, or disclosure of this document may violate laws that protect CSA Group’s and/or others’ intellectual property and may give rise to a right in CSA Group and/or others to seek legal redress for such use, modification, copying, or disclosure. To the extent permitted by licence or by law, CSA Group reserves all intellectual property rights in this document.

## Patent rights

Attention is drawn to the possibility that some of the elements of this standard may be the subject of patent rights. CSA Group shall not be held responsible for identifying any or all such patent rights. Users of this standard are expressly advised that determination of the validity of any such patent rights is entirely their own responsibility.

## Authorized use of this document

This document is being provided by CSA Group for informational and non-commercial use only. The user of this document is authorized to do only the following:

If this document is in electronic form:

- load this document onto a computer for the sole purpose of reviewing it;
- search and browse this document; and
- print this document if it is in PDF format.

Limited copies of this document in print or paper form may be distributed only to persons who are authorized by CSA Group to have such copies, and only if this Legal Notice appears on each such copy.

In addition, users may not and may not permit others to

- alter this document in any way or remove this Legal Notice from the attached standard;
- sell this document without authorization from CSA Group; or
- make an electronic copy of this document.

If you do not agree with any of the terms and conditions contained in this Legal Notice, you may not load or use this document or make any copies of the contents hereof, and if you do make such copies, you are required to destroy them immediately. Use of this document constitutes your acceptance of the terms and conditions of this Legal Notice.

**Canadian Standards Association (operating as “CSA Group”)**, under whose auspices this National Standard has been produced, was chartered in 1919 and accredited by the Standards Council of Canada to the National Standards system in 1973. It is a not-for-profit, nonstatutory, voluntary membership association engaged in standards development and certification activities.

CSA Group standards reflect a national consensus of producers and users — including manufacturers, consumers, retailers, unions and professional organizations, and governmental agencies. The standards are used widely by industry and commerce and often adopted by municipal, provincial, and federal governments in their regulations, particularly in the fields of health, safety, building and construction, and the environment.

Individuals, companies, and associations across Canada indicate their support for CSA Group’s standards development by volunteering their time and skills to Committee work and supporting CSA Group’s objectives through sustaining memberships. The more than 7000 committee volunteers and the 2000 sustaining memberships together form CSA Group’s total membership from which its Directors are chosen. Sustaining memberships represent a major source of income for CSA Group’s standards development activities.

CSA Group offers certification and testing services in support of and as an extension to its standards development activities. To ensure the integrity of its certification process, CSA Group regularly and continually audits and inspects products that bear the CSA Group Mark.

In addition to its head office and laboratory complex in Toronto, CSA Group has regional branch offices in major centres across Canada and inspection and testing agencies in eight countries. Since 1919, CSA Group has developed the necessary expertise to meet its corporate mission: CSA Group is an independent service organization whose mission is to provide an open and effective forum for activities facilitating the exchange of goods and services through the use of standards, certification and related services to meet national and international needs.

For further information on CSA Group services, write to  
CSA Group  
178 Rexdale Boulevard  
Toronto, Ontario, M9W 1R3  
Canada

A National Standard of Canada is a standard developed by a Standards Council of Canada (SCC) accredited Standards Development Organization, in compliance with requirements and guidance set out by SCC. More information on National Standards of Canada can be found at [www.scc.ca](http://www.scc.ca).

SCC is a Crown corporation within the portfolio of Innovation, Science and Economic Development (ISED) Canada. With the goal of enhancing Canada's economic competitiveness and social well-being, SCC leads and facilitates the development and use of national and international standards. SCC also coordinates Canadian participation in standards development, and identifies strategies to advance Canadian standardization efforts.

Accreditation services are provided by SCC to various customers, including product certifiers, testing laboratories, and standards development organizations. A list of SCC programs and accredited bodies is publicly available at [www.scc.ca](http://www.scc.ca).

Technical Committee on Portable Tanks for the Transportation of Dangerous Goods 5

Preface 8

**1 Scope 10**

**2 Reference publications 11**

**3 Definitions 13**

**4 General requirements 17**

4.1 General 17

4.2 Classification 17

4.3 Annex A and list of dangerous goods 18

4.4 Annex B and special provisions 18

4.5 Conflict 18

4.6 Danger to public safety 18

4.7 Venting and loss of content 18

4.8 Quality control manual 18

4.8.1 Scope 18

4.8.2 Application 18

4.9 Qualifications for personnel conducting non-destructive testing 18

4.10 Qualifications for tank designers 19

**5 Design and construction requirements 19**

5.1 Requirements for the design and construction of all UN portable tanks 19

5.1.1 General requirements and design criteria 19

5.1.2 Materials 20

5.1.3 Shells 22

5.1.4 Service equipment 23

5.1.5 Pressure-relief devices 24

5.1.6 Gauging devices 26

5.1.7 Portable tank supports, structural equipment, and lifting and tie-down attachments 26

5.1.8 Marking 27

5.2 Additional requirements for the design and construction of UN portable tanks intended for solids or liquids of Class 1 or Classes 3 to 9 29

5.2.1 General 29

5.2.2 Additional general requirements and design criteria 30

5.2.3 Shells 30

5.2.4 Service equipment 32

5.2.5 Pressure-relief devices 34

5.2.6 Vacuum-relief devices 39

5.2.7 Fusible elements 39

5.3 Additional requirements for the design and construction of UN portable tanks intended for the transportation of non-refrigerated liquefied gases of Class 2 39

5.3.1 Additional general requirements and design criteria 40

5.3.2 Materials 40

5.3.3	Shells	40
5.3.4	Service equipment	43
5.3.5	Pressure-relief devices	44
5.3.6	Additional requirements for portable tanks intended for chlorine (UN 1017)	47
5.3.7	Additional requirements for portable tanks intended for anhydrous ammonia	48
5.4	Additional requirements for the design and construction of UN portable tanks intended for the transportation of refrigerated liquefied gases of Class 2	48
5.4.1	Additional general requirements and design criteria	48
5.4.2	Materials	50
5.4.3	Shells	50
5.4.4	Service equipment	52
5.4.5	Pressure-relief devices	53
5.4.6	Gauging devices	54
5.4.7	Marking	54
5.5	Inspection during manufacturing, and initial inspection and testing	55
5.5.1	Certification	55
5.5.2	Independent inspector	55
5.5.3	Inspection during manufacturing	55
5.5.4	Initial inspection and testing	55
5.5.5	Initial inspection and test report	56

## **6 Selection and use 57**

6.1	General requirements	57
6.1.1	UN portable tanks approved by Canada	57
6.1.2	UN portable tanks approved by a country other than Canada	57
6.1.3	Additional requirements for tank containers	57
6.1.4	Use of IM and IMO-type portable tanks	58
6.1.5	Substitute portable tanks	58
6.1.6	Additional general requirements for portable tanks	59
6.1.7	Pre-loading requirements	60
6.1.8	Post-loading requirements	61
6.1.9	Pre-unloading requirements	62
6.2	Additional requirements for the transport of solid or liquid dangerous goods of Class 1 or Classes 3 to 9	62
6.2.1	General	62
6.2.2	Loading requirements	63
6.2.3	Filling	63
6.2.4	Liquefaction	63
6.2.5	Additional requirements applicable to the transport of Type F organic peroxide dangerous goods	63
6.3	Additional requirements for the transport of non-refrigerated liquefied gases and chemicals under pressure of Class 2	65
6.3.1	General	65
6.3.2	Filling	66
6.3.3	Additional requirements applicable to the transport of chlorine (UN 1017)	66
6.3.4	Additional requirements applicable to the transport of anhydrous ammonia (UN 1005)	67
6.4	Additional requirements for the transport of refrigerated liquefied gases of Class 2	67
6.4.1	General	67
6.4.2	Degree of filling requirements	67

6.4.3	Actual holding time	68
6.4.4	Pre-loading requirements	68
6.4.5	Post-loading requirements	69
<b>7</b>	<b>Design approval process and documentation</b>	<b>69</b>
7.1	Approval of the design of a UN portable tank	69
7.1.1	General	69
7.1.2	Design reviewer	69
7.1.3	Submission of new design	70
7.1.4	Responsibility of the design reviewer	70
7.1.5	Design approval certificate	72
7.1.6	Permitted design variations	73
7.2	Modifications to approved UN portable tank designs	73
<b>8</b>	<b>Inspection, test, and repair of portable tanks</b>	<b>76</b>
8.1	Inspection and test of portable tanks	76
8.1.10	Inspection and testing of UN portable tanks outside Canada	77
8.1.12	Decontamination	78
8.1.13	Inspection and test of pressure-relief devices in Class 8 dangerous goods service	78
8.2	Intermediate 2.5-year periodic inspection and test	79
8.3	5-year periodic inspection and test	80
8.4	Exceptional inspection and test	81
8.5	Internal and external inspection	81
8.5.3	Rejection criteria	82
8.6	Thickness test	83
8.6.4	Rejection criteria	83
8.7	Pressure test	83
8.7.1	General	83
8.7.4	Hydrostatic test	84
8.7.5	Pneumatic test	84
8.7.6	Pressure test rejection criteria	85
8.8	Leak test	86
8.9	Inspection and test markings	86
8.10	Inspection and test reports	87
8.11	Portable tank repairs	87
8.12	Portable tank modifications	88
8.12.1	General	88
8.12.2	Permitted modifications	88
<b>9</b>	<b>Registrations and documentation</b>	<b>89</b>
9.1	Registration requirements	89
9.1.1	Scope	89
9.1.2	Registration of facilities for portable tank manufacture, modification, inspection, test and repair	89
9.1.3	Registration of design reviewers and independent inspectors	90
9.1.4	Registration of facilities performing the dynamic longitudinal impact test	91
9.1.5	Additional registration requirements and conditions	91
9.1.6	Amendments to certificates of registration	92
9.1.7	Renewal of certificate of registration	92

9.2	Certification of compliance and documentation	92
9.2.1	Affixing of metal identification plate	92
9.2.2	Certificate of compliance	93
9.3	Documentation: Issuing, retention, and transfer	93
9.3.1	Manufacturer's responsibility	93
9.3.2	Independent inspector's responsibility	93
9.3.3	Owner's responsibility	94
9.3.4	Transfer of ownership	94
9.3.5	Inspection and test facility's responsibility	94
